About the Workshop

This workshop is designed to offer a platform for aspiring researchers and students, empowering them to deepen their understanding of biomedical research with a particular emphasis on Biostatistics and Bioinformatics. It will serve as an educational resource, offering access to the latest findings, techniques, and discussions in the field. The workshop will cover fundamental tools and techniques used in Biomedical research, including interactive lectures and hands-on training sessions, to provide practical skills applicable to research projects. Additionally, it will provide networking opportunities with peers and experts, fostering collaboration and inspiring innovative research ideas and projects.

Topics Covered

- Concepts in the Research Methodology
- Bioinformatics and its Applications in Biomedical Research
- Applications of Artificial intelligence (AI) tools in Biomedical Research
- Introduction to Biostatistics and its Applications
- Hands-on training on important statistical tests.

About the Centre

ICMR-Centre for Research, Management and Control of Haemoglobinopathies (CRMCH) is located in Padoli, Chandrapur, India, under the ICMR-NIIH, Mumbai, Department of Health Research, MHFW, Govt of India.

Target Audience

Inviting life science graduate students, research scholars, as well as medical students from Chandrapur and nearby districts of Maharashtra. It is suitable for both beginners and individuals seeking to enhance their skills in biostatistics and bioinformatics.

No of participants: 50 participants only

(Shortlisted participants will receive a confirmation email with event details on July 1st, 2024)
